

PHS Tree Tenders®

PRUNING CLUB

is coming to your area!

Volunteers from SOSNA Green and Neighboring Tree Tending Groups are coming: ***Fall of 2022!***

- If you have a street tree in need of pruning, or a yard tree planted by Tree Tenders, **with your written permission**, we will prune it during this session if time allows. (Street trees are trees that are growing in the sidewalk, next to the street curb.)
- Pruning will be done with safety in mind and will focus on removing branches that block the sidewalk and street, and those that are dead, damaged, diseased and structurally weak.
- If the soil and root zone around your tree needs improvement, volunteers may address weeding and aerating to allow for healthy tree root growth.
- Volunteers will be supervised by an ISA certified arborist or a certified PHS Tree Tenders Pruning Club Leader and will only work on branches they can reach with both feet on the ground.
- Pruning club will be postponed if it's above 95° or inclement weather.
- Please join us if you would like to learn proper tree pruning techniques.

*If you would like to join us for future Pruning Clubs, take part in other SOSNA Green events or become a Tree Tender, please contact us at **1.267.939.6272**, marcus.sosnagreen@gmail.com*

Permission to Prune Tree(s)

I grant permission for SOSNA Green, a Tree Tenders group of the Pennsylvania Horticultural Society, to prune my street tree(s), or Tree Tenders planted yard tree(s) on my property, and improve the root zone around my tree, such as through aerating and weeding.

Property Address (of tree) _____

Property Owner/Manager Name _____

Phone: _____ **Email:** _____

I reside/work where tree(s) is located.

Signature of Property Owner/Manager _____ **Date** _____
